

**1 IN 3 DOGS AND  
CATS WILL GET  
LOST!  
LET US  
MICROCHIP  
YOUR PET  
TODAY!**

### **What is a Microchip?**

A HomeAgain microchip is your pet's permanent ID. A pet microchip is the size of a grain of rice and goes beneath your pet's skin. It stores a unique 16-digit number, scanned easily by a universal scanner at shelters or Veterinary Hospitals. This permanent ID can never be removed or become impossible to read. HomeAgain uses this ID to contact you and reunite you with your pet.

### **The Pet Recovery Process**

Should your microchipped pet get lost, the HomeAgain recovery system can go into action and give your pet the best chance of coming back home to you.

### **Get the Facts on Microchipping**

HomeAgain microchips do not hurt your pet, require surgery or wear out, but they do give your pet the best chance of coming back home to you! Learn to separate the microchipping facts from fiction.
